

# ERP BENEFITS SINGAPOREANS

## ERP Is Not About Money

Today with more ERP gantries and higher charges, the amount of ERP collected in 2008 is expected to be \$160 million. But this is a small amount compared to the \$3 billion less that the government is collecting from the motoring public.

## 15% Road Tax Savings

When ERP charges were raised, road tax was also reduced so as to offset it and overall, to bring down the costs to motorists.

# ERP BENEFITS SINGAPOREANS

ERP contributes to a quality living environment, helps to make cars more affordable and keeps roads smooth-flowing.

## Motorists Pay Less

The government has moved from taxing car ownership to relying more on taxing car usage.

## More Cars But No Gridlock

More Singaporeans who aspire to own cars can now do so.
